### Cal OES INLAND REGION

#### **Train Derailment, Bloomington, San Bernardino County, SPILL 17-4871**

On 07/08/17 at 0038 hours the California State Warning Center (CSWC) received a report from Union Pacific Rail Road (UPRR) advising that a single rail car (Non Hazardous Plaque) had derailed upright in the railyard due to humping operations.

- There was no hazardous release and no injuries to crew.
- Crews will respond in daylight hours to re-rail the car.
- CSWC personnel performed notifications per SOP.

- See 2017 Statewide Winter Storms Slides

### Cal OES COASTAL REGION

#### **Apartment/Construction Fire, Oakland, Alameda County**

On 07/07/17 at 0500 hours a fire broke out at a construction site at 2425 Valdez St in Oakland. The building, when completed, would have been an apartment and retail complex. Residents in nearby areas have been evacuated for safety reasons.

#### **Evacuation Shelter**

- American Red Cross (ARC), St. Vincent de Paul, 2271 San Pablo Ave. Oakland
  - Feeding services will be provided by St. Vincent de Paul and ARC.
  - Evacuees number approximately 100 people.
  - Evacuees have approximately one dozen companion animals; primarily small dogs, which are being allowed at the shelter.
- Shelter services will be provide for at least 48 hours, pending safe re-entry to their residential domiciles.
- Cal OES Duty Officers continue to monitor the situation and provide updates as they are available.

# **SITUATION SUMMARY**

## **2017 Statewide Winter Storms**

### **Cal OES Coastal Region**

#### **Paul's Slide, State Route 1, Monterey County**

Per Cal OES Coastal Duty Officer (CDO), as of 1300 hours on 05/25/17, Paul's Slide on State Route 1 has been closed to all traffic.

- Caltrans engineers report slide activity and the area has been closed in the interest of public safety.
- Assessment will commence and further details will be provided once released.

#### **Mud Creek Slide, State Route 1, Monterey County**

The Mud Creek area on State Route 1 sustained a major slide on the evening of 05/20/17, when over a million tons of rock and dirt fell down the slope continuing down to the ocean floor 250 feet off the shoreline.

- The Mud Creek area is ¼ mile in length, made up of five slides, four of which fell during this single incident and consolidated into one slide. The remaining slide now extends 1,500 feet in length over State Route 1 and is about 35 to 40 feet deep.
- Roadwork at Mud Creek was suspended and heavy equipment removed due to the threat of new slides and for safety of highway workers. Caltrans geologists and engineers plan to assess it further when this area stabilizes.
- Estimated opening date is 06/01/18.

#### **Pfeiffer Bridge Incident, Monterey County**

California Highway Patrol (CHP) and Caltrans had a hard closure on the Pfeiffer Bridge on HWY 1 at mile marker 45.52 (SB Sycamore Canyon and the Bridge) due to a crack in the bridge. The bridge has been demolished so the road is closed and estimates for some access from the north is late September 2017.

- Backup air medical transport plans have been developed for medical emergencies through Cal OES Law Enforcement Branch.
- All businesses north of the Pfeiffer Canyon Bridge closure are open to the public.
- Caltrans will continue the process of delivering construction materials and equipment to the site of the demolished bridge on HWY 1 via Nacimiento-Fergusson Road from Hwy 101 on Tuesday, 06/20/17.
- Some equipment will begin moving out one piece at a time throughout the week. These convoys of equipment will be escorted by CHP.
- Effective 07/01/17, there will be a shuttle available until the Pfeiffer Canyon Bridge reopens (estimated reopening date from Caltrans is September 2017) seven days a week, 1200-2000. North shuttle leaves every hour starting at noon. South shuttle leaves every 15 minutes from Loma Vista to Nepenthe. The last shuttle from north to south is at 1700 hours. The last shuttle from south to north is 1900 hours.
- Pfeiffer Big Sur State Park will reopen to the public on 07/01/17 after an 11-month closure due to the Soberanes Fire and winter storms.
- Julia Pfeiffer Burns State Park, Andrew Molera State Park, and Highway 1 at Pfeiffer Canyon Bridge remain closed.

# WEATHER OF CONCERN

## Weather of Concern

- An upper level high pressure system over California will continue to strengthen and expand westward producing widespread triple digit heat to portions of the interior and desert southwest.
- Dangerous warning level and Gusty sundowner winds will develop over portions of Sothern California Coast, especially, near the foothills of the Santa Barbara South Coast.

## **WEATHER SYNOPSIS BY REGION**

### **NORTHERN CALIFORNIA**

Thunderstorms will be most likely to occur around Tahoe southward today look unlikely tomorrow. Some afternoon cumulus buildups seem likely over the northern and eastern mountains tomorrow, however. A trough looks like it may begin to have a bit more influence over the region Sunday into early next week. It is unclear how this will affect thunderstorm chances, but a few look possible over the northern and eastern mountains at that time. Around mid week, the high will push back westward and the best chances of thunderstorms will return to the eastern areas and possibly near the Oregon border for the latter half of next week. The marine layer near the coast will remain fairly deep north of Cape Mendocino and low clouds and patchy fog will persist there in particular. Gusty S to SW afternoon winds with gusts mostly 20-30 mph are expected to develop again Sunday in the eastern areas as the mentioned trough moves over the region. Otherwise, afternoon winds will be fairly light through the weekend except for daily gusty NW winds along the coast and gusty westerly winds at a bit higher-than-seasonal wind speeds through The Delta region.

### **SOUTHERN CALIFORNIA**

\*\*\*Isolated storms over the mountains and deserts through the middle of next week\*\*\*

\*\*\*Record heat through Today\*\*\*

Strong high pressure over the Southwestern States will bring record heat and low humidity to much of the region through Today. Maximum temperatures will be in the upper 80s and 90s across the mountains and 100 to 112 in the valleys. Minimum humidity will be mainly between 12% and 25%. North winds of 15 to 25 mph with gusts to 40 mph will surface across much of Santa Barbara County and the Grapevine tonight. High pressure will weaken bringing significant cooling tomorrow and then gradual cooling Monday through the middle of next week. Minimum humidity will increase to 15% and 30% during this time. Thunderstorm activity will be very isolated this afternoon and confined to the Sierra as well as the mountains and deserts of Southern California east of the Cajon Pass. Mid level moisture will increase a little both today and tomorrow causing the amount of thunderstorm activity to go up. Afternoon thunderstorm activity will be possible across most mountain and desert locations tomorrow and there is a slight chance of thunderstorm activity over the lower elevations of Southern California. Thunderstorm activity will become very isolated once again Monday through the middle of next week. There will be westerly winds of 15 to 25 mph with gusts to 40 mph across the wind prone desert areas each afternoon and evening through the middle of next week.

# **Cal OES LAW ENFORCEMENT MISSIONS**

## **Ongoing Cal OES Law Missions**

**2017-LAW-36966, 7/6/17, 1925 hours:** The Air Force Rescue Coordination Center (AFRCC) advised of a PLB activation in the area of Santa Cruz near Big Basin Redwood State Park. Coordinates: 37° 10.7 N, 122°17.0 W. The registered owner is from New Zealand. AFRCC contacted New Zealand Rescue Coordination Centre who provided additional information on the registered owner's itinerary. LDO notified Santa Cruz Sheriff Dispatch who assigned incident #68627 to the search. Santa Cruz Sheriff notified Big Basin Redwood State Park who dispatched rangers to search for the hiker. LDO continued to receive updated coordinates throughout the night and provided the coordinates to rangers. At approximately 2210 and 2300 hours, AFRCC began receiving miss passes or "no-detect" from the device indicating it had stopped transmitting. Per Park Rangers they had not located the hiker. Park Rangers searched throughout the night and checked camp registry with negative results. It was determined from Park Rangers, Santa Cruz Sheriff and LDO that the search would be suspended for the night and resume at day light. **Mission Ongoing.**

# **Cal OES RECOVERY**

## **2017 Statewide Winter Storms**

### **Presidential Major Disaster Declarations for January/February Winter Storms – FEMA-4301-DR-CA, FEMA-4305-DR-CA, & FEMA-4308-DR-CA**

- Assistance for emergency work and the repair or replacement of disaster-damaged facilities was approved for the following counties in at least one of the major disaster declaration: Alameda, Alpine, Amador, Butte, Calaveras, Contra Costa, El Dorado, Humboldt, Inyo, Kern, Lake, Lassen, Los Angeles, Marin, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Plumas, Riverside, Sacramento, San Benito, San Diego, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tuolumne, Yolo, and Yuba and the Tule River Tribe in Tulare County.

### **EMAC and Public Assistance - 2017 Winter Storms**

- Cal OES Recovery Division identified the need for Public Assistance subject matter experts to assist with the aftermath of the 2017 Severe Winter Storms. Accordingly, Cal OES requested assistance from other states through the Emergency Management Assistance Compact (EMAC) - the Nation's mutual-aid system. New Jersey and Colorado provided personnel that arrived on Monday, 06/13/17. Both states along with other potential states will be providing support between now and the beginning of September at various Joint Field Offices throughout California. The goal is to assist those impacted counties in identifying disaster related damage and program eligibility.
- See Cal OES Mission Tasking slide for Mission Tasking information.

# Cal OES MISSION TASKING

## Cal OES Missions

- **2017-SOC-36209:** Two Public Assistance Coordinators from the state of New Jersey have been assigned to California through the Emergency Management Assistance Compact (EMAC) system
- **2017-Cal OES-35819:** Twelve Caltrans engineers requested to conduct damage and site inspections throughout the state for impacts related to 2017 February Winter Storms. The lead engineer will report to the Joint Field Office to coordinate the response.
